PROFESSIONAL SUMMARY

Junior AI and web developer pursuing a BS in Artificial Intelligence, with practical experience building AI automation workflows, Python services, computer-vision applications, and responsive web interfaces. Hands-on with n8n, REST APIs, FastAPI, React, OpenCV, and YOLO. Interested in junior, internship, and contract opportunities in AI/ML, automation, Python, computer vision, and frontend engineering.

TECHNICAL SKILLS

AI & Automation: Machine-learning fundamentals, OpenCV, YOLO, n8n, AI workflow automation, webhooks, API integrations

Programming & Backend: Python, C++, FastAPI, Django, Java, Spring, PHP, REST APIs

Frontend & Data: React.js, JavaScript, HTML5, CSS3, responsive design, MySQL, MongoDB

Tools & Platforms: Git, GitHub, WordPress, SEO, Stripe integration

SELECTED PROJECTS

AI Resume Screening & Bias Detection — Python, FastAPI, Celery, React

- Built an AI-assisted screening workflow with bias detection, fairness auditing, and human-in-the-loop review.

Smart Parking Detection — Python, OpenCV, YOLO

- Developed a real-time computer-vision system that classifies parking spaces as occupied or vacant from video.

OSPilot Agent — Python, Local-first AI Automation

- Created a safety-focused agent that diagnoses workspace pressure and quarantines approved cleanup items with rollback.

EXPERIENCE

AI Automation Intern | Software House | 3-month internship

- Developed n8n workflows for real business processes and integrated external APIs and AI services.
- Worked with webhooks and data-transformation nodes to streamline repeatable operational tasks.
- Collaborated with developers to identify automation opportunities and implement practical solutions.

Freelance Web Developer | Remote

- Built responsive web interfaces and backend functionality based on client requirements.
- Applied Python, JavaScript, HTML, CSS, and database skills to deliver user-focused web solutions.

EDUCATION

BS Artificial Intelligence — University of Management & Technology | Oct 2023–Present

CERTIFICATIONS & ADDITIONAL INFORMATION

Training: SEO & WordPress (3 months) • AI Automation / n8n Internship (3 months)

Languages: Urdu, English • **Availability:** 15-day notice period • Open to remote and Pakistan-based roles
